Re: New U.S. Patent Application
**ORDER AND ACCOUNTING METHOD AND SYSTEM
FOR SERVICES PROVIDED VIA AN INTERACTIVE
COMMUNICATION NETWORK**
Inventors: **Scott Landau, Peter Fante and Dorron Mottes**
Our Ref.: IFF-101

Dear Peter:

Enclosed is a patent application which was prepared to cover the above-referenced invention.

Please review the application to ensure that it is accurate and contains sufficient technical details to enable others to make and use the invention. Let me know if there are any inventors in addition to the above-named inventors or if any of the inventors named did not contribute to the claimed subject matter. If Dorron Mottes is one of the inventors, please also have him review the application.

The application must set forth the best mode presently known of practicing the invention. If any corrections and/or additions are to be made, you should call me to discuss them.

Once the application is in order, I will forward the formal papers (Declaration and Power of Attorney form, Assignment and Small Entity Declaration) to you for execution. In order to prepare the formal papers, I will need the following information:

- **Full name, home address and citizenship of each inventor**
- **Name and address of the company to which the patent application will be assigned**
- **Name and title of an officer of the company who will sign the Small Entity Declaration**

If you, the other inventors, or anyone else connected with this application are aware of, or become aware of any prior art (such as patents or publications) that are pertinent to this application, please call me to discuss them. This will enable us to comply with the Patent Office requirements relating to the duty of disclosure, which impose a continuing obligation requiring us to bring any relevant known prior art to the attention of the patent examiner throughout the prosecution of this application.

Also, let me know if there has been any public disclosure (such as submission or publication of a paper to a technical journal, or presentation at a technical conference) or offer for sale (including any offer under a non-disclosure agreement) of the invention.

Your prompt attention to this matter is appreciated. Do not hesitate to contact me if you have any questions or require further information.

Very truly yours,

Barry R. Lipsitz

BRL/mh

Enclosures: Copy of Application (54 pages)
Five (5) sheets of drawings
